Shareholder structure

Company profile

- The former start-up company from the Munich suburb Gilching develops and manufactures laser products allowing high data rate and long-distance wireless data transmission between moving objects for terrestrial, airborne and space applications.
- Mynaric works together with companies, such as Facebook, Google and SpaceX.
- The proceeds from the IPO were used to finance further growth in order to become the leading international company for the implementation of dynamic communications networks in the air and in space.
- In 2018 Mynaric won the prestigious "Innovation Award" at Deloitte's "Technology Fast 50" competition.
